Programme Name: Bachelor of Information Technology (BIT)

Programme Description

The Bachelor of Information Technology is a three-year programme that focuses on the systems development aspects of the ICT professions. This is a totally revamped course of the existing BIT degree. The structure and content have been upgraded in line with Australian Universities. The course has heavy technical content and focuses on the systems development aspect of the information technology profession. The course offers opportunities for you to specialize in an area related to IT.

The overall course structure is sub-categorized into Software Engineering and Multimedia and Game emphasis. Graduates can take on roles such as analyst programmer, database manager, computer systems developer, interactive web developer, network designer, project manager, and software architect and systems tester.

It consists of 24-course units amounting to 360 credit points. Students must complete all compulsory courses and elective courses.
