

Fiji YouthSpeak Forum 2018

EMPOWERING YOUTH:

From Decisions to Actions focusing on SDG13 & SDG14

WE BELIEVE THAT YOUTHS TODAY SHAPE THE WORLD TOMORROW

As the President of the COP 23 and the Co-Chair of the UN Ocean Conference, Fiji is taking the lead in the quest for solutions to combat the encroaching effects of climate change. Youths in Fiji need to be part of this immense movement and stand up to make a difference. The Forum will encourage youths to become more resilient and effective future leaders. Fiji YouthSpeak Forum 2018, co-organised by AIESEC in Fiji and Pacific Islands Development Forum (PIDF), will be the first AIESEC youth speak forum for the Pacific.

With the theme *Empowering Youth: From Decisions to Actions focusing on SDG 13 (Climate Change) and SDG 14 (Life Below Water)*, Fiji YouthSpeak Forum 2018 aims to motivate and engage Fiji youths into meaningful discussions as well as supporting them to take concrete actions in fighting climate change and help sustain life under water. We hope to bring together youths and senior leaders to form a diverse cross-sectoral and multigenerational space for inspiring conversations and actions around these pressing issues.

Date: May 11 2018 **Venue:** University of Fiji, Lautoka **Time:** 8.30am-5.30pm
